Description	Vassoi per proteggere la freschezza di ortaggi dalla 1° alla 4° gamma. Prodotti con i massimi standard qualitativi e igienici e compatibili con tutte le linee di confezionamento automatiche. Il vassoio B19NR, frutto dell'innovazione firmata Ilip, pesa il 20,7% in meno rispetto al modello precedente, ma garantisce una resistenza alla compressione decisamente maggiore. Questo significa eco design: aumentare le performance, riducendo l'utilizzo di materie prime. Questo è eco-design: più prestazioni con meno utilizzo di materie prime. Colore: azzurrato

Description	I vassoi della linea SealMaster sono stati progettati per essere utilizzati negli stampi di termosigillatura già esistenti sul mercato in modo da garantire una perfetta processabilità sulle linee di confezionamento. Tutta la gamma, nelle sue formulazioni di struttura Evo e Duo, è disponibile con fondo "assorbente" Microcell che cattura e intrappola gli essudati senza bisogno del classico assorbente. Colore: azzurrato
